~R3F~ ARMES

Version 1.2

Illustration: Le Projet FELIN / The FELIN Project

Installation

[FR]

Utiliser le package d'installation automatique ou procéder de la façon suivante:

- ✓ Extraire le fichier R3F_ARMES.7z dans votre repertoire principal ArmA 2:OA, de façon à obtenir l'arborescence suivante vers le fichier pbo:

  "*Votre_repertoire_Arma_2:OA*\R3F_ARMES\Addons\r3f_armes.pbo"

  Si vous n'avez pas encore de logiciel d'archivage, allez sur:
  http://www.7-zip.org/

- ✓ Lancer Arma OA / Arma CO et dans le menu principal, choisir "EXTENSIONS" et activer le mod R3F_ARMES.

- ✓ Arma vous demandera de le relancer…FAITES-LE.

Voilà, c'est fini.

Pour profiter de ce mod, aller dans l'éditeur de mission et choisir la caisse de munition disponible sous: *VIDE\MUNITIONS\Caisse d'armes R3F*

[ENG]

Use the automated installation package or proceed this way:

- ✓ Extract the R3F_ARMES.7z archive to your main ArmA 2:OA directory, then you should obtain the following path to the pbo file.

  "*Your_Arma_2:OA_directory*\R3F_ARMES\Addons\r3f_armes.pbo"

  If you don't already have a suitable archiving tool, go to:
  http://www.7-zip.org/

- ✓ Launch Arma OA / Arma CO and when in the Main menu, Select "EXPANSIONS" and activate the R3F_ARMES mod.

- ✓ Arma will ask you to restart…DO IT.

Ok, that's done.

To enjoy this mod, go into the mission editor and select the weapon box available under: *EMPTY\AMMUNITIONS\R3F Weapon box*

Remerciements :
A tous les membres de la team ~R3F~ pour les nombreux tests, suggestions et apports personnels à différents niveaux.
A tous les non R3F pour leurs retours et suggestions d'améliorations.

Chez nous, pas de script de trou du cul pour empêcher la compatibilité avec d'autres addons comme on peut le voir dans la soit disant auto-proclamée « communauté Française», vous êtes libres de faire ce que vous voulez et le R3F respecte cela.
